

INDUSTRIAL AUTOMATION SENSORS

PRECISION FOR SMARTER MANUFACTURING

Piher sensors deliver accurate, reliable feedback for demanding industrial applications.

Built with contactless technology for maximum performance, minimal downtime, and long-lasting value

**ACCURATE
POSITION
FEEDBACK**

**CONTACTLESS
WEAR-FREE
TECHNOLOGY**

**RARE
EARTH
FREE**

**INDUSTRY 4.0
READY**

**MAINTENANCE-FREE
OPERATION**

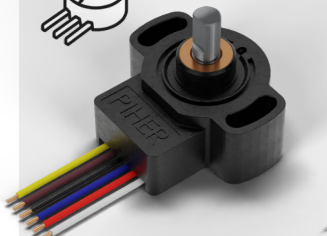

**BUILT FOR
HARSH
ENVIRONMENTS**

ROTARY POSITION SENSORS

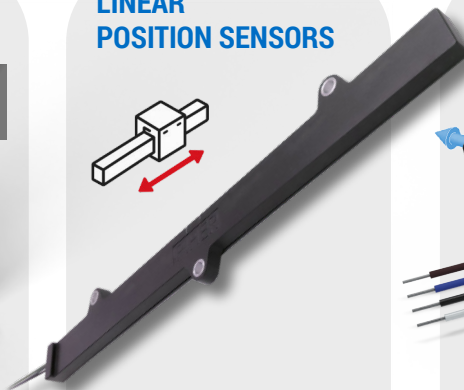

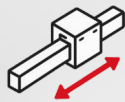

End of shaft
Through shaft
Arc (off-axis)

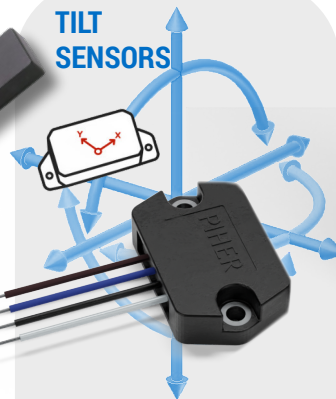

High-precision rotary sensors for angle and position feedback in industrial motion systems

LINEAR POSITION SENSORS

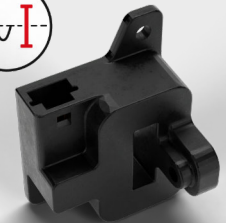

Contactless linear position sensors for accurate, wear-free measurement in linear applications

TILT SENSORS

Reliable tilt measurement for inclination monitoring and leveling applications

CURRENT SENSORS

Accurate, isolated current sensing for motor control, drives and energy management systems

**PRECISION STARTS WITH
RELIABLE FEEDBACK**
